B. OBLIGATIONS

1 OBLIGATIONS OF ASSIST CARD

The obligations of ASSIST CARD established within the present Travelers' assistance contract will only apply in the event of an accident and/or of a sudden and acute illness suffered after the date on which the ASSIST CARD Card starts its validity or the date that the trip commences, whichever occurs last.

For all cases of assistance services provided within the country of issuance of the card, ASSIST CARD's financial responsibility will always and without exception be complementary and subsidiary to the financial responsibility corresponding to the social security and/or welfare program and/or health insurance and/or pre-paid medical attention program(s) that the Card Holder may be a member or beneficiary of.

ASSIST CARD reserves the right to verify the veracity of the Card Holder's declaration in this sense. ASSIST CARD will be entitled to demand from the Card Holder immediate reimbursement of all the expenses unduly made in case a service was paid that -had the financial responsibility of the Card Holder's social security program, welfare program, insurance coverage and/or pre-paid medical attention program, been previously verified- would not have been rendered or would have been rendered only partially.

Independently of the fact that the ASSIST CARD assistance service is rendered as the result of an accident or an illness, the Maximum Global Amount for Medical Expenses will be the one established within your voucher.

2 OBLIGATIONS OF THE CARD HOLDER

In all cases and for all the services, the Card Holder is obliged to:

2.1 PRIOR AUTHORIZATION

Contact an ASSIST CARD office and receive their authorization before taking any step or incurring in any expenses.

ASSIST CARD will not take economic responsibility in case the Card Holder leaves the medical centre where he/she is admitted, on his own decision, without prior medical authorization or against the attending doctors' opinion. Nor will ASSIST CARD take responsibility of any kind for complications and/or worsening of the Card Holder medical condition eventually resulting from unmistakable unfulfillment of the medical indications received.

In case the Card Holder fails to contact ASSIST CARD to request assistance, ASSIST CARD's liability for assistance costs will be limited to the cost incurred by ASSIST CARD if the assistance had been duly requested, as reasonably judged by its Medical Department, based as far as possible on ASSIST CARD's experience in similar cases.

2.2 OBLIGATION OF INFORMING WITHIN 24 HOURS

ASSIST CARD is not an emergency medical service, so in case of any urgent medical emergency, the Card Holder may resort to the nearest emergency medical service. In all such cases the Card Holder must report the emergency suffered and the assistance received to ASSIST CARD from the place it occurred, as soon as possible and always within the first 24 hours following the incident or within 24 hours following the medical discharge. The Card Holder will be required to furnish original documentation and receipts supporting the situation. Upon previous evaluation of the case and once any restrictions or exclusions have been ruled out, ASSIST CARD will decide to assume all the expenses resulting from the assistance and with the following limitations:

- 1) They will not exceed the tops established for the assistance rendered according to the ASSIST CARD product purchased
- 2) They will not exceed the values that ASSIST CARD had paid to its network service lender for the same assistance
- 3) It must stick to the values for the usual use in the country or region where the event originated. For the specific case of events occurring in the USA the reference values to be used will be those known in that country as "Usual and Customary amount"

No charge or reimbursement will be taken originated by expenses resulting from emergency situations, unless strict fulfilment of the present instructions for the utilization of ASSIST CARD services

2.3 DOCUMENTATION SUPPLY

The Card Holder must supply ASSIST CARD with all documentation and information necessary to justify the case and whether the case falls within the scope of these General Conditions or not, in addition to all the original receipts for expenses reimbursable by ASSIST CARD as well as all medical records, even those previous to the trip or of any kind, that may be necessary to provide its services. This includes the authorization to have free access to the medical history in his/her country of origin as well as the contact with his/her personal doctor, prepaid medical care, health insurance, etc.

The Card Holder will lose all rights to compensation, compensation and / or reimbursement if he omits compliance with the provisions of the preceding paragraph, or if he acts in bad faith by presenting fraudulent documentation or using false evidence.

If required, the CARD Holder shall provide the passport with the seals of Migration of the authorities corresponding to the dates of entry to and exit from the country of origin, or the certificate of arrivals at and departures from a country of origin, in case the migration authorities shall not require to provide the passport.

In the event the CARD Holder, in cases of force majeure, could not comply with the prior application for authorization to contract services by his/her own, notwithstanding the compliance with all and the obligations, he/she may provide ASSIST CARD with all the information required in order to verify the service rendered, the genuine urgency that originated the service and the impossibility of the prior communication. The aforementioned stated condition is essential to obtain a payment and/or a reimbursement authorization of the expenses incurred. **Shall this requirement not be complied with; ASSIST CARD shall have the right to deny the payment and/or reimbursement pursuant to the assessment which results from the audit of the case.**

In case of an accident, the corresponding formal complaint before the police shall be attached for the approval of the expenses, notwithstanding if the prior authorization is obtained by ASSIST CARD.

2.4 MEDICAL/DENTAL DOCUMENTS

The Cardholder must submit the complete medical records in order to make any claim to ASSIST CARD arising from medical/dental assistance. The lack of compliance of this requirement shall allow ASSIST CARD to deny the claim.

2.5 FLIGHT TICKETS

In those cases when ASSIST CARD assumes any fare difference from the original tickets, or when ASSIST CARD provides the repatriation service for the Card Holder in case of serious accident or demise, he/she must deliver to ASSIST CARD all transportation tickets (air travel or not) that he/she may possess. In all such cases ASSIST CARD will only assume the eventual fare difference that may exist, if corresponding.

IMPORTANT: Failure to comply with any of the obligations stipulated in Clause B.2 shall automatically exempt ASSIST CARD from paying for the assistance expenses incurred.

When the nature of the illness or injuries of the Card Holder so require, intensive care and coronary unit treatments will be performed. In all such cases and as an essential requirement for ASSIST CARD to take upon the payment of these expenses, these treatments must have been authorized by ASSIST CARD's Medical Department (except the exceptions expressed in Clause B.2.2).
